Eudolya is an international company specialising in exclusive mobility & business networking. It is named after a precious and rare shell found in the Mediterranean Sea. Joining Eudolya means sharing a lifestyle that combines exciting experiences with optimised investments. Members have at their disposition much more than their favourite car, they have a fleet of cars. They can fly on the best jets and move with autonomy and safety in more than one thousand airports in Europe and around the world. They can experience a fantastic journey by boat or stay in splendid villas in the most exclusive locations. Moreover, our agenda of events and meetings creates a base of common interests and business opportunities that will spontaneously bring Eudolya members together.
